Roll NO. : - S20200010234

Ans 1:-

The Ptolemy theory proposed that the universe was a closed space. According to him, Earth was a fixed and immobile mass that is located at the center of the universe, he also proposed that the Sun and the stars also revolve around the Earth.

Ans 2:-

Copernicus was reluctant in making his theory public as he knew how much his shocking revelations would disturb the church.

Ans 3:-

It was believed humans were made in the image of god's image and were superior to all creatures, the natural world had been created for humans to exploit.

Ans 4:-

Bruno was sentenced to death because his theories had opposed the church. In particular, his theories regarding the infinite expanse of space and that there might exist many suns with each of them having their planetary systems.

Ans 4:-

Copernicus's theory had one of the biggest effects on the human ego, it brought into light that Earth was not the center of the universe, rather a small insignificant part of it. Moreover, it rejected the idea that humans have been superior beings with a premier position in this world.
