Q-4

- Do you know Sonyak scored 10 sgpa in last semester? Speak of the devil, here he comes.
- They were discussing about the new teacher. Speak of the devil and she walked in.

Q-5
(a)

Assessments are being conducted, and we are supposed to cope with the stress.

(b) I don't think you should bring the ticket

Part-B

- ② This picture clearly shows ^{us} ~~the~~ the denial of the problems faced by the Society. ^{for} ~~for~~ eg CLIMATE CHANGE (as written on the truck). We are not ready to agree that it ^{does} exists and growing exponentially, and the cause behind it is us. Rather ~~that~~ than finding ~~over~~ the solution, ~~we~~ firstly we are not accepting the problem. Secondly we are blaming each other for the cause. Reducing the ^{factor} ~~factor~~ of climate change is very difficult it may take us years. But getting to the first step is really important in today's scenario. If we didn't start now, we are not the one who will suffer, the upcoming generation will suffer because of us. It is the responsibility of every individual to initiate, to start with small

Steps against climate change, and to persuade the government to take steps against climate change for the betterment of the society. This picture is a mirror to the people who are not ready to agree the big problem like climate change.

Q-1. Agenda in a meeting is important as it gives a route for the meeting and helps to stay it on track and that everyone knows what's happening and what to happen next. Agenda gives the idea as to discuss about in the meeting and find a conclusion through, everyone gives their opinion in a meeting regarding that agenda. Without an agenda, a meeting can become chaotic and less interactive.
